FLEET SOLUTIONS since 1986™

NECS® has been providing quality fleet solutions to vehicle and equipment owners and operators across the nation for almost a quarter of a century. From its headquarters in southwestern Indiana, **NECS**® has developed an enviable reputation as a premier provider of professional fleet and equipment support services.

A privately held, family-owned company, **NECS**® central operations have been located in Jasper, Indiana since the company was founded in 1982. Over the ensuing two-plus decades, the company has introduced a wide variety of fleet support services including sales and fuel tax recoveries, fuel and mileage tax reporting, D.O.T. compliance services, title and registration

services, driver profile management, permitting and operational authorities, background screening, etc...all in response to requests from its portfolio of commercial and government fleet customers across the country.

NECS® has been recognized for outstanding service by the United States Postal Service through its prestigious **USPS Quality Supplier Award** program. Each year the Postal Service selects just ten suppliers from the ranks of over 25,000 utilized by the USPS for award of their Quality Supplier Award. In 2003, **NECS**® was selected as a USPS Quality Supplier Award Winner for its Fuel Tax Recovery work on behalf of the US Postal Service.

In presenting the award to **NECS**® President, David Fuhs, Postmaster General, John E. Potter, noted that "Supply chain management efforts have been very successful in providing positive bottom line and performance results that ultimately help the Postal Service more effectively achieve its mission of providing mail service to the American public. Your selection was endorsed by postal people who have worked directly with your organization and who know firsthand about your outstanding performance".

NECS® is very proud to have been honored in that fashion. Our mission is to maximize value for our customers...and even after a quarter of a century, we *continue to work very hard for - and listen very carefully to* - the fleet managers and operators across the country who rely on us for Quality Fleet Solutions.

Tax Recovery Services

Negotiating the curves of paying state and federal excise, fuel, and sales taxes can be a hazardous journey for any fleet manager ... and expert help is often hard to find! **NECS®** has guided businesses through those perilous passages for a quarter century.

We can help you to determine whether your business qualifies for a federal or state tax recovery... and then provide valuable assistance in dealing with the hassles and red tape of government bureaucracy.

NECS® serves both the commercial and government fleet marketplace in the United States and Canada!

Fuel Excise Tax Recovery Services

Fuel taxes can account for as much as 60¢ cents per gallon of fuel. If you manage a fuel budget, you can't afford to ignore opportunities for recovery of fuel taxes.

NECS® has been recognized by the United States Postal Service for Fuel Tax Recovery work performed on their behalf. **NECS®** is one of *only 10 annual winners* (out of 25,000 USPS suppliers) that have received the prestigious USPS Quality Supplier Award!

Additional Tax Recovery Opportunities & Services

- Alternative Fuels -Taxes and Credits
- Sales & Use Tax Recovery
- Reverse HVUT Audits / Tax Recovery
- Tire Excise Tax Recovery
- Retail Excise Tax Recovery
- Communications Excise Tax Recovery
- Fuel Consumption Analysis
